Doubting Thomas: "My peace I leave you."

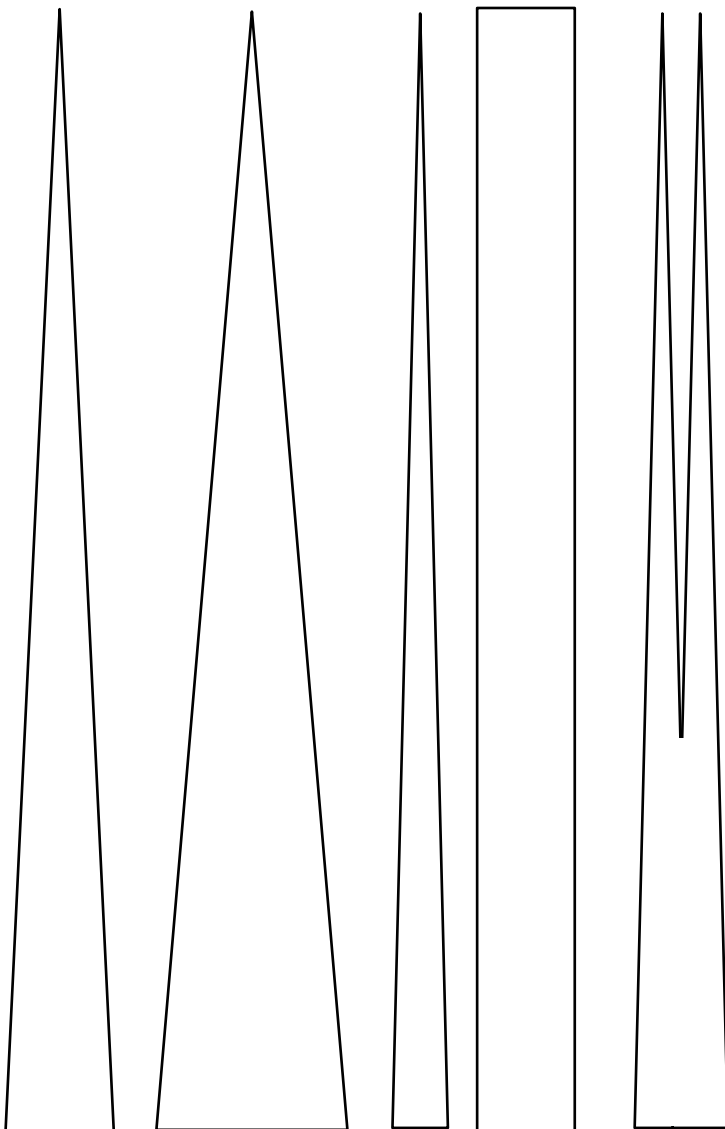

This week we will be making wristbands and bracelets.

You will at least need some string, thread, ribbon or paper ribbon.

You will need too some buttons or beads.

(I can show you how to make beads on Sunday but try beforehand if you like!)

To make beads you will need paper (old magazines/wrapping paper) and glue.

Cut strips of paper and roll the strips tightly from the widest end to the point (leaving a hole in the centre of the roll - see the cocktail stick pictures above). Experiment with different lengths and widths of paper. You can 'varnish' them with a 50:50 mix of PVA glue and water. There are lots of online tutorials if you search for 'making paper beads'.
